

Editorial Policy Boletín de Coyuntura

Focus and scope

Boletín de Coyuntura is a scientific journal published by the Economic and Social Observatory of Tungurahua - OBEST of the Technical University of Ambato - UTA (Ambato-Ecuador), with codes e-ISSN 2600-5727 / p-ISSN 2528-7931, registered in Academia.edu, BASE, Crossref (DOI), Dialnet, DOAJ, Google Scholar, LatinREV, MIAR, REDIB, RERCIE, RRAAE and in the Directory and Catalog 2.0 of Latindex.

Its objective is to contribute to scientific knowledge through the dissemination of original and unpublished scientific research, review and reflection articles, in Spanish and English, focused on: economics, finance, administration and accounting. The journal is aimed at professionals and researchers working in these fields of knowledge.

Frequency of publication

Boletín de Coyuntura publishes 4 issues per year, quarterly (January-March, April-June, July-September and October-December). The first article of each journal is published in January, April, July and October. Each journal has a minimum of 4 articles. The publication period for the total content of each journal is 8 to 10 weeks.

Mode of publication

Boletín de Coyuntura publishes under the continuous flow modality since 2024. The reception of manuscripts is permanent.

Arbitration system

The arbitration system of the Boletín de Coyuntura consists of double-blind peer review (the identity of the author and peer reviewers is kept hidden).

Originality

The articles published in the journal are unpublished and original (Spanish/English), in the lines of research of the journal, which have not been previously published in full or in part in any print or electronic media. Authors should not send simultaneously/multiply the same article to different publications or publishers. Any socialization of results related to the written topic is done after the publication of the corresponding Boletín de Coyuntura.

Types of articles

Boletín de Coyuntura receives the following types of manuscripts:

- **Scientific research articles:** it is an article that presents in detail, the original results of research projects, it is based on a question, which is attempted to be answered through a structured and reproducible method.

- **Review articles:** it is an article that compiles the most relevant information on a specific topic. It analyzes, systematizes and integrates the results of other research in a given field, in order to account for progress and development trends. Its purpose is to review the published literature and place it in a certain perspective.
- **Reflection articles:** it is a subjective article that presents the result of an investigation from the analytical, interpretative or critical perspective of the author, on a specific topic, supported by other investigations.

International Scientific Committee

The members of the International Scientific Committee are professionals from other countries and have the following characteristics:

- Recognized international trajectory.
- Master's degree or higher.
- Research experience (scientific publications, conferences, refereeing in other research journals, thesis direction, awards, among others).
- Specialists in the journal's fields of action.

The database of the International Scientific Committee is augmented as required by selecting members who meet the aforementioned points, and is updated/debugged based on the journal's collaboration and review statistics.

Note: communication is by e-mail: obeconomico@uta.edu.ec

Editorial Committee and evaluators

The members of the Editorial Committee and evaluators of the Boletín de Coyuntura are internal/external to the Universidad Técnica de Ambato and have the following characteristics:

- Recognized national and/or international trajectory.
- Master's degree or higher.
- Research experience (scientific publications, conferences, refereeing in other research journals, thesis direction, awards, among others).
- Specialists in the journal's fields of action.

The database of the Editorial Committee and evaluators is augmented as required by selecting members who meet the above-mentioned criteria, and is updated/debugged based on their article review statistics.

Note: communication is by e-mail: obeconomico@uta.edu.ec

Privacy Statement

The names and e-mail addresses entered and/or registered will be used exclusively for the purposes stated by this journal and will not be available for any other purpose or to any other person.

Anti-plagiarism

All articles received for publication in this journal are subjected to anti-plagiarism review by Turnitin software, where grammatical and orthotypographic coincidences should not exceed 30%, otherwise the article is rejected, ensuring that the works are unpublished and meet the standards of editorial quality that guarantee own scientific production.

Conflict of interest

All authors are required to explicitly declare that there are no conflicts of interest that may have influenced the results obtained or the interpretations proposed. Authors should also indicate any agency and/or project funding from which the research article arises; in the absence of external sources, authors should declare the work as "self-financed" or "own funds".

Statement of responsibility

The content of the articles sent to the Boletín de Coyuntura is the responsibility of the author and attest that the work is original and unpublished, that it does not contain parts of other authors or fragments of previously published works. They also confirm the veracity of the data, that is, that the empirical data have not been altered to verify hypotheses.

Copyrights

The publications of the Boletín de Coyuntura are licensed under a Creative Commons Attribution-NonCommercial 4.0 International License. The Technical University of Ambato retains the copyright of the published works, and favors and allows the reuse of these, as long as: the authorship and original source of publication is cited, and they are not used for commercial or onerous purposes. The intellectual property of the published articles belongs to the authors.

Author's contribution

The journal Boletín de Coyuntura considers that the authors contribute equally in the preparation of the articles, and therefore does not request a contribution statement.

Open access

The journal Boletín de Coyuntura is open access, all content is available free of charge and at no cost to the user or his/her institution. Users may read, download, copy, distribute, print, search or link to the full text of the articles, or use them for any other legal purpose, without requesting prior permission from the publisher or the author and without registration, and there is no foreclosure period for the content. All publications in the journal are licensed under a Creative Commons Attribution-NonCommercial 4.0 International License. The open access policy of the Boletín de Coyuntura is in accordance with the Budapest Open Access Initiative - BOAI.

Article Processing Charges (APC)

Articles published in the journal Boletín de Coyuntura have no submission, processing or publication costs for the authors.

Updating information and digital preservation

The journal's Technical Team constantly updates its website, as required, providing researchers with renewed information. The updates are:

- Publication of a new issue of the journal.
- Indications for authors and readers.
- Call for papers.
- Editorial Team of the journal.
- Links to related websites.
- Others that the journal considers important.

In addition, all the information of the journal is deposited in the servers of the Technical University of Ambato, which prepares a monthly backup of its database and a quarterly backup of its server.
