Date of receipt:		Date of return:	

Instructions for evaluation:

A series of questions are presented to guide you in evaluating the article. Please answer all the criteria by choosing and placing (X) in only one of the options given for each case.

1. Relevance of the article	Yes	No		
Is the research topic of scientific-academic relevance?				
Is the article a new and original contribution to the topic being worked on?				
Are the conclusions consistent and justified with the data or with the thesis(es) presented in the article?				
<i>Comments:</i>				
2. Criteria on formal aspects of the article	A lot	Enough	Little	Nothing
Does the title allow identification of the subject?				
Does the abstract evidence the structure of the article, including the problem and participants?				
Do the keywords identify the area of knowledge of the article?				
Is the conceptual basis used by the author to argue in his article serious, topical and authoritative in his area of knowledge?				
Does the bibliography evidence up-to-date information relevant to the subject of the article?				
<i>Comments:</i>				

3. Criteria on the content or substance of the article	A lot	Enough	Little	Nothing	
Is the research problem clearly defined and delimited?					
Is there sufficient clarity and synthesis capacity in the ideas expressed in the conclusions?					
Do the conclusions presented provide new theoretical or practical knowledge on the subject matter worked on?					
Are the results adequately presented for easy understanding by readers?					
<i>Comments:</i>					
4. Quantitative valuation	5	4	3	2	1
Mark with an (X) the number that best represents the quantitative evaluation for this article: 5 = very good; 4 = good; 3 = regular; 2 = bad; 1 = very bad.					
5. Qualitative valuation					
Mark with an (X) the most appropriate recommendation as to the publication merit of this article:	Approve the article	Approve the article, with the condition that the author complies with the requested corrections	Reject the article		

After the evaluation of the article, please sign the form (physical or electronic signature) and send it to the following e-mail address: obeconomico@uta.edu.ec

Note: in addition to the article evaluation form, evaluators must send their evaluation report in Word, PDF, or as a text message in the e-mail, and they can also make comments in the article itself.
